## Why MSB

---

My Stall Butler offers personal hygiene in a convenient easy to use dispenser using the toilet paper already there. Many adults have various medical conditions or had medical procedures that affect their bowel movements. Things such as Irritable Bowel Syndrome (IBS), Diarrhea, loose stools, gas/bloating, Gallbladder Surgery, Bariatric Surgery, and the list goes on. They may have eaten something that didn't agree with them, drank too much the night before, sweating and women during their menstrual cycle.

Whatever reason you have that you would like a "Fresh, Clean, Confident Feeling", My Stall Butler is here to give you that just showered feeling ready to face the rest of your day!

Remember,

"Everyone Appreciates Good Hygiene"
